INTRAMURAL BASKETBALL

There were many upsets during the week in the Intramural games, which placed the Sigma Nu's and the Pi Kappa Alpha's in a tie for first place. The following games were played during the week.

Tuesday the Sigma Nus suffered their first defeat, at the hands of the Independents, and provided the first of a number of interesting upsets. This was due to the fact that little Dave Moulder was unable to miss the basket. The final score was 18-14 in favor of the Independents.

The second game of Tuesday's hostilities was a very one-sided affair and with Berry hot, the Mercier's suffered a very decisive defeat by the Pi Kappa Alpha quintette by a score of 31-8.

Thursday the Bonanzas and the Prospectors played a postponed game. This was another one of the upsets of the season, with the Prospector's on the best side of the affair, which ended with a score of 26-22. Christine accomplished the greater part of the Prospector's scoring.

Saturday the Bonanza's were again defeated, this time by the Triangles, who in a very hard fought battle, advanced into third place in the seasons standing. The score was 25-22.

The Prospector's and the Mercier's played the second game in which the Prospector's came out with the larger end of the score of 18-14. This was the second game won this week for the Prospector's, and raised their standing in the league to seventh.

The standing of the clubs.

	Won	Lost	Per Cent
Sigma Nu	6	1	857
Pi Kappa Alpha	6	1	857
Triangle	5	2	714
Independents	5	2	714
Bonanza	4	3	570
Lambda Chi	4	4	500
Prospectors	3	5	375
Mercier	2	6	250
Kappa Sigma	1	6	143
Kappa Alpha	1	7	125

MISSOURI U. GLEE CLUB TO GIVE CONCERT HERE.

The Missouri University Glee Club under the direction of Prof. Herbert Wall will give a concert in the Parker Hall auditorium next Saturday evening. The Missouri University Glee Club has held the championship of the Missouri Valley Conference for the past three years. Last year they took second place in the national contest, and those who know claim that they are the outstanding competitors for the 1927-28 National College Championship.

The student body and the populace of Rolla are extremely fortunate in having an opportunity to hear one of the foremost musical organizations in the country.

Prof. Wall needs no introduction to the people of Rolla, as he has presented several programs here. At one program he was assisted by several members of the glee club and those who heard that program are still enthusiastic in their praises. There is no doubt but that Saturday nights program will be an exceptional treat.

The program is under the auspices of the Junior Class and all Juniors are selling tickets. The tickets are 75 cents. The Freshman dance which is scheduled for Jackling Gym for Saturday night will not begin until the conclusion of the concert.

NOTICE.

On March 2nd, the varsity will play a conference game with Tarkio College. This is also the week end of the high school basketball tournament and owing to the number of teams entered the Athletic Association finds it necessary to play a game proceeding and one following the varsity game. On this night all students must present their student activity card and 25c to see these three games. No exceptions will be allowed and these cards must absolutely be shown and accompanied by 25c. Those people having a season ticket will also be required to pay this additional charge for the extra games.

MINERS DROP TWO TO WILLIAM JEWELL.

In the first game of the series the Miners were defeated by William Jewell College of Liberty 30-34. William Jewell started off with a rush and in ten minutes had massed a 12 point lead. Which they kept until just before the half when McCormack dropped in two long ones. In the second half the Miners started with a rush that fairly paralyzed the Cardinals defense. McCormack and Heilig hit the basket to make the score a tie. With only a few minutes left to play Dumphy, Jewell forward, dropped in two set-ups, placing William Jewell in a four point lead that the Miners couldn't overcome.

This game was not counted as a conference game due to the failure of an official referee to arrive to conduct the game.

The score:

MINERS (30)

Name, Position,	Field Goals,	Foul Pts.,	Fouls,
McCormack, L.F.	7	1	15
Tucker R.F.	2	1	5
Heilig C.	2	1	5
Hassler L.G.	0	0	0

Carmichael R.F.	3	3	9	0
Butts, C.	0	1	1	1
Davis, L.G.	2	0	4	3
Burch, R.G.	1	1	3	1

Total 14 6 34 7

On the second game of the double meeting of the two teams, the Jewellites, played a different line-up with the exception of a guard. William Jewell off-set the Golden Wave with a Tide of Crimson, the Cardinals scoring 39 points to the Miners 23. The first half was exceedingly slow, due to the loose playing of both sides and the Miners were trailing by a score of 10-14 at the end of that period. Instead of staging their usual comeback, a disheartened team with the forwards

missing numerous set-ups, and the guards frequently leaving a Jewellite in the open, was about all that could be said of the Miner team. Substitutions did not remedy this any and the game was loosely played until the final gun.

Thsi was a conference game and pushed the Miners farther down into the cellar with no wins and seven losses in the M. C. U. conference.

The score:

MINERS (23)

Name, Position, Field	Foul	Pts.	Fouls

ANNUAL HIGH SCHOOL

BASKETBALL TOURNAMENT.

With the date Monday, February 20 as the final date for entry of team for the tournament, entries are rapidly being sent in and prospects are for the best tournament ever held here.

The tournament will start the night of Thursday, March 1 and continue through to the final games on Saturday, March 3, when the championship of both boys and girls games will be held. An added feature to the tournament will be the appearance of Tarkio College playing against the Miners the night of March 2. It is a double attraction to the tournament games which will be played the same night.

Trophies for the winners and runner-ups, both boys and girls will be presented to the winners on Saturday night at the conclusion of the tournament.

Line up will appear in next week's Miner.

NOTICE.

The following men, after the completion of the present semester work, will have completed all the requirements for graduation exclude of the

FOOTBALL SCHEDULE

1928 SEASON.

The football schedule is not quite complete, but as it now stands is as follows:

Oct. 6—Washington U., St. Louis.

Oct. 13—McKendree, Here.

Oct. 20—St. Louis U., St. Louis.

Oct. 26—Central, Here.

Nov. 3—Kirksville Osteopaths, Here

Nov. 10—Westminster, Fulton.

Nov. 17—U. of Arkansas, Fayette.

Nov. 24 or 29—Drury, ?

I love the girls who do,

And I love the girls who don't,

But the girl that I love best,

Is the girl who says she DON'T

but—

"Just for you I might."

Well it won't be long till St. Pats now, so everyone should begin to look around and find out what all is going to happen and where it is going to happen.

A large order for green ribbons has been placed and the shipment is expected in the week before the big event so that that noble order "The Country Boys Club" can have appropriate pledging ceremonies. It never fails that many of the men qualify for election to this order and the usual number is expected this year.

We'll bet there wasn't a whole lot of sleeping done in a certain drawing room on the train headed for New York last week end. Three big men is a lot to have in a drawing room and expect to get any rest—especially if one or two of them have tendencies towards somnolent music.

We hope they were in fine shape to attend all the sessions of the A. I. M. M. E., but Broadway doesn't go to bed as early as we here in the Ozarks and they may be slightly out of practice.

We feel sure, however, that if either the meetings or Broadway had to suffer by their absence that it would be Broadway who would be looking for customers to take their places.

We wonder if the Frosh still have an idea that they can do as they please when it comes to mass action. There are at least one or two of them have a better idea which is the harder side of a paddle, than they had last week. They evidently forgot one of the laws of Physical Chemistry about the way a reaction tends to go depends upon the molecules of greatest concentration. The upperclassmen evidently had a greater concentration.

Tamm and Fritz Hassler are going out for cross country after basketball season is over. They got in some good practice on the recent basketball trip. The only thing wrong with their training is they give up too easily. A five mile walk with a girl isn't bad.

Tucker is going to be a detective one of these days. He is always looking for something that isn't.

Then also there are several who

would like to know how much that telegram to the girl cost Windy Hollows.

EXCHANGES.

NEEDS OUTGROW M. U. FUNDS.

Attendance Out of Proportion to Money, Dr. Brooks Says.

The University of Missouri needs more funds to meet the increasing demands, Dr. Stratton D. Brooks, president of the university, said recently at a meeting of the Fortnightly Study Club at Liberty.

"You cannot manage a first class school with a constantly increasing attendance on funds that are not increased in proportion," he said. The affairs of the university are conducted economically and efficiently, but often it is economy to increase the budget allotment. Efficiency and economy are measured by what is accomplished."

—K. C. Times.

Lindy Sighs, "What Price Glory?"

Four freshmen at the University of Arkansas could not tell who Charles Lindbergh was, in a quiz given them recently.

One of four freshmen thought Lindbergh was the prime minister of Sweden during the 18 century. Which reminds us of the Swedish visitor who upon landing in Gotham remarked, "Mein Gott, if this is New York what will Lindsborg be!"

—Daily Kansan.

Will Rogers will speak to the students of Butler University, Indianapolis, Ind., just three days before examinations start.

Upper-classmen at Harvard are not required to attend classes during the last two weeks of the first semester.

Married students make the best grades according to a recent study made by two University of California professors. They have found that women Phi Beta Kappa's at the university from 1874 to 1910 were divided—the greater percentage being married students.

—Daily Kansan.

Although all members of the Missouri University basketball team passed the finals, Francis Lucas, grid captain of the 1928 football eleven may be ineligible next season because of his scholastic record. Two

track stars, Kennedy and Daniels, were also declared ineligible for the spring track season.

Double-decking the memorial stadium to increase its seating capacity is being considered at the University of California at Berkeley.

—Daily Kansan.

JUNIOR CLASS RAFFLE.

The Junior Class has announced that the St. Pats Raffle will take place at the Lyric Theatre Wednesday evening, February 22nd. The Junior Class benefit picture that night will be "The Fair Co-ed" featuring Marion Davies and Johnny Mack Brown. The plot is based on the famous comedy by George Ade and Gustav Luders and the picture version promises a laugh a minute.

The drawing for prizes will take place between the first and second shows. There is no other attraction that night so everyone turn out with their tickets and see who all are the lucky persons.

M. S. M. TENNIS TEAM**AT STATE MEET.**

A tennis team, with both doubles and singles teams, will accompany our track team to the state meet at Fulton this spring. To determine the tennis team a tournament will be held here. The tennis courts will be in better shape this spring than last due to the summer's plowing, which turned under the worn out surface.

Poor courts are a big handicap to tennis playing here. One pair of courts is, and always will be, flinty, and the other pair is flooded by water at every rain, as the unsightly coal pile of the power plant has destroyed the drainage from this court, and due to this flood the surface of these courts is a disgrace. It was endeavored to haul six or eight inches of clay onto these courts last summer, but due to lack of funds this much needed improvement was held up.

The budget of the Athletic Department for the past two years has carried an appropriation to permit grading the ruffed sink east of the gym into a set of good tennis courts. This expense is very small, and a school of this size certainly should have the courts planned by

the Athletic Dept.

The courts that we have at present, however, will be finished into the best possible shape so that the tournament may be held and the best players in the school determined so that we may be represented in the annual meet which is being held in conjunction with the state track meet. This is a new adventure in sports and it is hoped that many will take advantage of this opportunity in order that we may turn out a good tennis team this year. Let's start as soon as possible and get a well developed team and walk off with the laurels at the state meet. We have the material here so let's develop it and see the difference in the interest in this sport.

TRACK SCHEDULE.

It will be only a few days until warm sunny days come and our track team starts treading the cinder path. A very strong track schedule has been arranged for this season, one which is worthy of this school. At the beginning of the present school year it appeared that we were going to go through any competition offered us with dazzling success, but the prospects is not so

pleasing now. The general tightening up of scholarship standards has hit our track team hard. However, it is too early to form any opinion on our chances for this season, and who can tell what talent may come to light from the freshman class?

Our track schedule has a new feature which will prove very interesting—an interclass meet. Here's a chance for those who are interested in intramural school activity to put in a good lick for their classes.

The schedule:

April 7—Interclass Meet.

April 16—U. of Arkansas, Rolla.

April 21—Washington U., St. Louis.

April 25—Cen. Wesleyan, Westminster, Warrenton.

April 28—High School Meet, Rolla.

May 4—Central (tentative), Rolla.

May 8—Springfield Teachers, Springfield.

May 12—Drury, Rolla.

May 17-18—State Conference Meet, Fulton.

Very Girlish.

Bill—Was she shy on her birthday?

Bob—Yes, she was shy about ten candles.—Answers.

PHI KAPPA PHI PLEDGES

ANNOUNCED.

The mass meeting Friday morning was featured by the formal announcement of Phi Kappa Phi pledges. The students to whom this signal honor is conferred are selected on a scholastic basis. Annually, in this school, seven outstanding scholars of the Senior Class are chosen. They belong to the upper fifth of the class for four years of undergraduate work.

Dr. Bardsley opened the meeting with a short peroration in which he presented the nine chosen scholars. They were, namely: Prof. J. Bridges, Prof. W. Jensen, Miss Mary Bradford, John Antener, E. C. Miller, R. Walters, R. Baumgardner, E. E. Faulkner, and F. Sewell. After the presentation of the ribbons, Dr. Woodman gave a short, interesting talk upon the history, aspirations and achievements of the honor society, Phi Kappa Phi.

In the course of the meeting Dr. Armsby announced that it would be possible to get the Missouri U. Glee Club to present an entertainment

here. He made it clear that the students' attitude toward this would help to determine whether these entertainers would be procured or not. Putting it to a vote, demonstrated that an overwhelming majority of the student-body favored it. If they are secured for an evening we should back this demonstration of our interest by attending en masse.

Livingston, of the Senior Council, announced that, though shipment had been delayed, caps of the emerald hue were destined to soon adorn the pates of our new Frosh.

PHI KAPPA PHI

PLEDGES ANNOUNCED.

At the first mass meeting of the semester held at Parker Hall last Friday, the principal matter of business was the pledging of students, ranking highest scholastically, into the Honor Society of Phi Kappa Phi. Seven students and two members of the faculty were pledged: The pledges in alphabetical order are: John Edgar Antener, Rupert Paul Baumgartner, Mrs. Mary Phariss Cleino Bradford, Edward Carroll Faulkner, Edward Calvin Miller, Floyd Eugene Sewell, John Robert Walther. Of the student pledges, Mr. Antener held the highest scholastic record for the seven semesters of his attendance at the School of Mines, his average being 2.60. The members of the faculty pledged to Phi Kappa Phi were Professor Josiah Bridge, A. B., M. S., Associate Professor of Geology and Professor William J. Jensen, A. B., A. M., Assistant Professor of Physics. The pledging ceremony was conducted by Dr. Bardsley, President of Phi Kappa Phi, Dr. Woodman, and Professor Mann, Secretary.

M. S. M. GENERAL

LECTURE PROGRAM.

The thirteenth number on the Missouri School of Mines General Lecture Course will be given this Thursday evening at 8:00 p. m. at Parker Hall. Major L. B. Roberts, Topographer, Third Asiatic Expedition of the New York Museum of Natural History, 1925, author, explorer, engineer, will deliver an illustrated lecture entitled "An Exploration of the Gobi Desert." Mr. Roberts was formerly connected with the U. S. Geological Survey, and later he was associated in a firm of Aerial Photographers making aeroplane maps of cities, etc. Major

Roberts paid a visit to the School of Mines in 1921 in interest of photographing the Meramec Springs Quadrangle. At that time students in training at the School of Mines were engaged in the survey of that topographic map. A few weeks ago the Government published the topographic map of the east half of Phelps County, mapped by the students. We again welcome Major Roberts to Rolla and await the privilege of exploring the Gobi Desert with him next Thursday. Admission is free. Faculty, students, and townspeople are invited to hear Major Roberts, who appears on the General Lecture Series under the auspices of the Students Chapter of the American Society of Civil Engineers.

ALL WORK PROMPTLY DONE

THE OLD SOAK'S LAMENT.I've taken my corn where I've found
it,I've drank quite a bit in my time,
I've had my pickins of whiskey
And some of the lot was prime
I've tried genuine Bourbon
And I've drank rot gut moonshine
I've poured down lots of tequila
And I've had some straight alky
in mine.Now I aren't no drunkard or nothing
But taking it all along
You never can tell till you've treid it
And then you're like to be wrong:
For there's some you'll swear you
can carryThat'll damn near send you west
But what you take of the weak ones
Will help you a lot with the rest.When I was a young one in Oshkosh
I'd never drank none to begin
But I was dating a co-ed
And she craved plenty of gin
I didn't know much where to get it
Though I had plenty of tin
So she showed me the way out to
bootleggers lane
And I learned from her to like gin.Then I heard of the oil fields
And headed for south of the line
And took with a horny young tooley
Whose favorite drink was moon-
shine
Run off back in the mountains
As clear as water it were
We drank it neat from early till late
And I raised my capacity there.Then I was transfered to Browns-
ville.
Or I might have been drinking it
yet.
But the greasers they all drank
tequila
So'd I it was easy to get
Lace a hooker of gin with some
ginger
And you'll know about what its
like
It mills round inside like a little
earth quake.
It was there that I saw my first
snake.But I went right on hitting the bottle
Till the lining is gone from my
flues
But there's no place like the colleges,
When it comes to lapping up booze
Cause if you can't drink a quart in
a swallow
Why you're left plumb out of the

swim

I couldn't do such cause they poured
down to much
But I learned about drinking from
them.I've taken my corn where I've found
itAnd now I must pay for my corn
For the more of it you've swallowed
The more you'll go for the horn.
And the end of its sitting and shaking
And fighting the —damn T. D.
So be warned by my lot which I
know you will not
And learn about liquor from me.
Quien Sabe.**MAJOR ROBERT TO
ADDRESS A. S. OF C. E.**An the afternoon of Major
Robert's arrival for his General Lec-
ture engagment, next Thursday, he
is to address an open meeting of the
Student Chapter of the American
Society of Civil Engineers on some
phases of his technical engineering
practice. This lecture will be given
in room 106 Norwood Hall at 3:00
p. m. Thursday. All those interest-
ed are invited to attend. Major
Robert's technical address should be
of especial interest to all civils,
miners, and geologists interested in
topographic maping. The speaker has
had long experience on the U. S.
Geological Survey and is the author
of the text "Topographic Maping"
used in courses 104 and 105 this
semester at M. S. M.LOUIS J. BERG, President,

ATTENTION SCHWEICKHARDT!

An old countryman had been
about Vancouver for some time
without work, but finally got a job
cutting the slabs into stove lengths.
The hazy circle at the outer edge

of the circular saw had a tremen-
dous fascination for him and at last
he put his finger over it to see just
what it was. His finger came off.

As he stood gazing at the bleed-
ing finger stump, the foreman came

along. "Well, what's the matter
here?" he asked.

"Blame me if I know," was the
reply. "You see I just put my finger
over the saw like that * * * My
gawd, there's another one gone!"
